

# The American Center for Life Cycle Assessment

The American Center for Life Cycle Assessment (ACLCA) is the voice of life cycle assessment in North America, promoting the acceleration and application of environmental life cycle thinking. ACLCA's members include global leaders in sustainability and life cycle assessment from industry, consulting, academia, government, associations, and NGO's.

## ACLCA is known for providing our members and the community with consistent expert resources and solutions that include:

- Education, training, and certifications
- Successful strategies for companies, government, academia and students
- Innovative ideas and networking events
- Expertly compiled resources, case studies, and tools
- Active committees that offer productive discussions and idea sharing include: Outreach, Industry, PCR, Education, Policy, Student
- Access to certified life cycle assessment professionals, industry experts and thought leaders
- Information and materials for using LCA/Life Cycle Thinking to make you sustainability efforts more successful and profitable
- Strategic partnerships to provide LCA expertise and drive success and impact
- Largest LCA conference in North America (LCA XIX) featuring LCA Institute for Executives & Sustainability Professionals - September 24 – 26, 2018, Tucson, AZ

## ACLCA Board

Chair: **Bill Flanagan** - Aspire Sustainability

Vice Chair & Treasurer: **Rich Helling** - Dow

Vice Chair & Secretary: **Brandie Sebastian** - Steel Recycling Institute

**Carrie Pearson** – 3M

**Alison Brady** - Georgia Pacific

**Connie Hensler** – Interface

**Jean M. Bruney** - Chevron

**Xiaoying Zhou** – DTSC

**Tom Etheridge** - HP

**Gretchen Govoni** – SABIC

**Megann Head** - Steelcase

**Garvin Heath** –NREL

**Wes Ingwersen** – EPA

**Josh Kniefel** – NIST

**Jeff Zeman** - Kohler

**Chris Koffler** – thinkstep

**Cheryl Smith**– Owens Corning

**Lise Laurin** – Earthshift Global

**Mike Levy** – American Chemistry Council

**Brad McAllister** – WAP Sustainability

**Troy Hawkins** - Argonne National Laboratory

**Tom Gloria** – Industrial Ecology Consultants

**Mark Pitts** - American Forest & Paper Assn

**Christopher Richard** – Lockheed Martin

**Sangwon Suh** -Bren School

**Kuma Sumathipala** -American Wood Council

**Julie Sinistore** – WSP

**Sarah Cashman** - Eastern Research Group

**Melissa Zgola** - Quantis

The American Center for Life Cycle Assessment

# Outreach Committee

[aclca.org/outreach](http://aclca.org/outreach)

The mission of the ACLCA Outreach Committee is collaborate and build an extended network of sustainability advocates to promote the importance of employing a life cycle perspective and to increase awareness of the value of life cycle assessment for a more sustainable global economy.

The mission will be accomplished by engaging with like-minded and similarly-missioned organizations to mutually benefit both organizations and encourage a sustainable marketplace. **Life cycle thinking (LCT)** is a mindful, qualitative approach to system-level thinking about the entire life cycle of a product service, technology or organization with the intent of identifying trade-offs, understanding interconnectedness, and improving sustainability.

**Life cycle assessment (LCA)** is a standardized and robust quantitative methodology that can quantify the environmental benefits and impacts of products, organizations, technologies, and services. Both are essential skills for any sustainability program to leverage.

Growing ACLCA Reach & Visibility

Supporting Continuing Education Credits

Membership & Meeting Registration Exchange

Promoting LCA Certified Professionals

Webinar & Advertising Swaps

Direct Expert Connections & Updates

Some exciting benefits of the partnership may include membership & meeting registration exchanges, webinar swaps, access to expertise (LCA Certified Practitioners), blog and white paper contributions, advertising and visibility, LCT/LCA education content and communications, supporting continuing education credits, and much more. [Contact us](#) today if you are interested in forming a meaningful and valuable collaboration.

The American Center for Life Cycle Assessment (ACLCA) is a nonprofit membership organization providing education, awareness, advocacy and communications to build capacity and knowledge of environmental LCA and life cycle thinking. ACLCA membership consists of industry, academia, government, consulting, and NGOs. To learn more, please visit <http://www.aclca.org/>.
